Atelier Boonen - Fichet-Bauche Complice

Additional information

brand: Fichet Bauche

Fichet-Bauche Complice – Free-standing safe Grade 0, fire resistant

The Fichet-Bauche Complice is a compact free-standing safe, manufactured in France, designed to protect valuables and important documents both at home and in the office.

The safe offers certified protection against burglary according to the European standard EN 1143-1, Grade 0, with A2P certification. The 20, 40 and 80 litre models are additionally certified fire resistant for 30 minutes for paper documents, in accordance with EN 15659 – LFS 30P, under the ECB·S label.

The construction consists of double-walled steel panels, filled with a high-resistance mineral compound. This design combines effective protection with a relatively limited weight, which makes delivery and installation of the safe easier.

The reinforced door, with a total thickness of 87 mm, is fitted with steel locking over its full height and a hook profile on the hinge side, which effectively prevents the door from being lifted off. An additional blocking mechanism automatically locks the door in the event of an attack with mechanical or thermal tools.

Despite its robust construction, the Complice retains a sober, elegant appearance. The ergonomic handle and black finish allow the safe to blend harmoniously into a private or professional interior. Thanks to the external hinges, the door opens up to 180°, giving particularly easy access to the contents.

Two locking systems are available:

– K models: high-security Fichet-Bauche MPX key lock, combined with the mechanical Trois Tubes Compteurs (3T) counter combination
– E models: Fichet-Bauche Nectra electronic code lock

The locking systems are A2P certified and comply with the European standard EN 1300.

The Complice is available in four capacities: 10, 20, 40 and 80 litres. A kit for fixing to the floor or wall is supplied with every safe. This range also exists as a wall safe — a safe to be built into the wall or embedded in concrete, available in 10, 20 and 40 litres: the Fichet-Bauche Complice wall safe.
