Atelier Boonen - Fichet-Bauche Millium

Additional information

brand: Fichet Bauche

Fichet-Bauche Millium – Certified safe Grade 1, 2 or 3 (EN 1143-1)

The Fichet-Bauche Millium is a compact and reliable safe for environments requiring certified burglary protection. The safe is certified in accordance with the European standard EN 1143-1 in Grade 1, 2 or 3, with double ECB·S and A2P certification following tests by the CNPP laboratory. The Millium is today the best-selling Fichet-Bauche safe.

Its multi-walled structure is filled with Gradium, Fichet-Bauche's patented armoured composite. This innovative material combines high resistance with thin walls, optimising the interior volume. The door is locked by a vertical bolt over its full height, operated by an ergonomic handle. A hook bar on the hinge side prevents attacks on the hinges, and a passive blocking system is triggered automatically in the event of a burglary attempt.

The Millium is designed for easy daily use: handle on the left, key on the right, controls at the top of the

door. Its straight, sober lines fit discreetly into any professional or private environment.

The Millium is fitted as standard with one or two EN 1300 certified locks, A2P label: the patented Fichet-Bauche MxB-B key lock, combined with a mechanical (MC4, Moneo) or electronic combination (Nectra, KelNet). The optional factory-fitted DOCT alarm detects opening, shock and thermal attacks and is compatible with most alarm systems.

The Millium is available in six sizes from 40 to 370 litres, fitted as standard with height-adjustable shelves and prepared for fixing with five anchoring points in the base and one in the back wall. Numerous interior options are available: reinforced shelves, interior cabinets, sliding trays and holders for suspension files. Technically equivalent, but bolder in design with its curved door: the Fichet-Bauche Carena.
