Atelier Boonen - Kaso E 300

Additional information

brand: Kaso Safes

Kaso E 300 – Lightweight burglary- and fire-resistant safe (EN 1143-1 certified)
The Kaso E 300 safe combines certified burglary and fire protection with an advanced lightweight design. Using Kaso's proprietary BFP multi-layer construction, this safe delivers high resistance while being up to three times lighter than traditional armored safes — a breakthrough that redefined the industry standard for high-security storage.

Certified to EN 1143-1 (ECB·S) in Grades 0 to 5, the E 300 also offers 60 minutes of fire protection for paper documents (S 60 P according to NT 017) in all versions except Grade 4. This fire- and burglary-resistant safe is ideal for securing documents, valuables, and cash.

A wide range of certified locking options (key, mechanical combination, or electronic lock) and modular interior fittings allows the Kaso E 300 to be fully tailored to your security needs.

Structurally identical to the Kaso PTK series, the E 300 stands out with a refined, modern design, making it especially well suited for contemporary office and private settings.

Kaso safes are known worldwide for their reliability, durability, and high-security performance.
