Atelier Boonen - DRS Euro Defender

Additional information

brand: De Raat Safes

DRS Euro Defender – Certified fire-resistant and burglary-resistant safe (EN 1143-1, grades 1-3)

The DRS Euro Defender provides reliable, certified protection against both burglary and fire, and stands out for its excellent value for money. These Defender safes are available in resistance grades 1, 2 and 3, tested to European standard EN 1143-1 and certified by the independent body ECB·S.

For fire protection, each model is tested to the NT FIRE 017 standard (945°C), providing 60 minutes of certified fire resistance for paper documents.

Every DRS Euro Defender safe is equipped with four-sided locking: active solid steel bolts on three sides and fixed bolts on the hinge side. A fire-resistant expanding strip around the door and frame reacts to high temperatures to seal the safe and block heat, smoke and hot gases.

The locking mechanism is further protected by a reinforced armour shield made from ultra-hard materials, including carbide and hardened steel balls. Active and passive relocking systems, among the most advanced on the market, offer extra protection against tampering or attempted break-ins.

The Defender safes can be fitted with a variety of locking options: a double-bit key lock, a mechanical combination lock, an electronic code lock, or a combination of these systems, depending on the desired

security level and ease of use. From size 2 onwards, models can also be fitted with 2 locks.

Thanks to their relatively low weight, Defender safes are easy to install without compromising on security.

The DRS Euro Defender is a reliable and accessible solution for businesses and private users alike seeking a certified fire-resistant and burglary-protected safe at a competitive price.

See also our other fire resistant safes or read how to approach buying a safe in Belgium, with delivery and installation by our own team.

Fire resistant 60 min for paper
Burglary resistant grade 1, 2 or 3
Indicative value retention grade 1: € 10 000 cash or € 20 000 valuables
Indicative value retention grade 2: € 25 000 cash or € 50 000 valuables
Indicative value retention grade 3: € 45 000 cash or € 90 000 valuables

- Tested and certified by ECB·S to European standard EN 1143-1 Grade I, II and III
- Fire-resistant tested 60 minutes for paper according to NT Fire 017 60P
- Multi-walled construction filled with high-resistance composite material offering certified protection against fire and burglary
- Four-sided locking: active solid steel bolts on three sides and fixed bolts on the hinge side
- Locks and locking mechanism protected by additional armouring and active and passive relocking devices (relocker)
- Fitted as standard with a double-bit key lock
- Height-adjustable shelves
- Prepared for anchoring
- Colour: black
