Atelier Boonen - Kaso PK 400

Additional information

brand: Kaso Safes

Kaso PK-400 – Fire-Resistant Safes for Documents and Data Storage (NT Fire 017 – 120 Diskette / 120 Paper)

The Kaso PK-400 series includes both data safes and fire-resistant safes, providing excellent protection for documents and digital data. The PK-400 data safes are certified according to the NT Fire 017 – 120 Diskette standard, offering 120 minutes of fire protection at temperatures exceeding 1045°C for data and media files. This makes the PK-400 data safes the ideal solution for securely storing digital data such as CDs, DVDs, magneto-optical discs, and zip drives, protecting them from fire and heat.

The PK-400 fire-resistant safes offer 120 minutes of fire protection for paper documents according to the NT Fire 017 – 120 Paper standard. Both types feature a four-way locking mechanism and come standard with an ECB·S certified Mauer key lock, with the option to add extra locking systems and anchor the safe to the floor for added security.

The PK-400 series offers flexible storage options with adjustable shelves, lockable compartments, and the option for multipurpose pull-out drawers. These fire and burglary-resistant safes are suitable for a variety of storage needs, from office environments to more secure applications for sensitive documents and data.
