

Atelier Boonen - Technomax Gold

Additional information

Technomax Gold - Small freestanding safe for private use

The Technomax Gold small freestanding safe is designed for everyday home use, offering discreet protection against theft and unwanted access. Thanks to its compact format, it can be easily installed inside furniture, on shelves, or in other accessible locations.

The body is made of 5mm single-walled steel, with a 10mm thick door and front frame, laser-cut and reinforced to resist prying and leverage attacks. Critical parts of the locking mechanism are protected by manganese steel anti-drill plating.

Depending on the model, this small safe is available with:

- a double-bit key lock (GK – EN 1300 certified),
- a mechanical combination lock combined with key lock (GD),
- or an electronic code lock with emergency key (GT).

The unit is prepared for secure anchoring, with four fixing holes in the base and four in the rear wall. The Technomax Gold with code offers a practical and reliable solution for private users looking for a compact and secure freestanding safe.

Break-in resistant in accordance with EN 14 450 Security level S1, S2

Security level S1 indication of value storage: € 2 500 cash or € 5 000 valuables

Security level S2 indication of value storage: € 5 000 cash or € 9 000 valuables

- The models GMK, GMD and GMT are certified Security level S2. The GMT3P model is not certified.
- Door and frame 10mm steel, body single wall 5mm fully welded without seams
