Technomax DP - Fire-resistant private safe for documents (LFS 30P, Security Level S2)

The Technomax DP is a fire-resistant private safe, certified according to EN 15659 – LFS 30P. It offers 30 minutes of fire protection for paper documents at temperatures up to 850°C. The safe is also tested for burglary resistance to EN 14450 – Security Level S2.

The double-walled steel body is filled with fire-resistant insulation and fitted with a thermal door seal. With concealed internal hinges, nothing protrudes on the hinge side. The door opens to 90°.

The Technomax DP is available with:

- a double-bitted key lock
- an electronic code lock with emergency power contacts and integrated override key
- or a combination of key lock and 3-button mechanical combination lock.

All locking systems are flush with the door surface, except for model DPD, where the lock protrudes 10mm.

Prepared for floor and wall anchoring; mounting hardware included.
