Atelier Boonen - Sistec SPS and SDS

Additional information

brand: Sistec safes

Sistec SDS & SPS – Fire-resistant document safes (EN 1047-1, up to 120 min)

The Sistec SDS and SPS series are designed for certified fire protection of paper documents. Both models are tested according to EN 1047-1, the highest European standard for fire-resistant safes. This ensures 60 minutes (SPS) or 120 minutes (SDS) of protection for paper at extreme temperatures up to 1090°C, including drop impact testing.

The SDS series is also burglary-resistant, certified to EN 1143-1, grade I, offering additional security against forced entry. The multi-walled body includes a fire-resistant infill, four-sided locking bolts, and a heat-sealing door profile that blocks fire and smoke ingress.

Both safes are equipped as standard with a double-bitted key lock certified to EN 1300 and come pre-fitted for floor and wall anchoring. Finished in light grey (RAL 7035) and available in various sizes.

The Sistec SPS and SDS offer reliable protection for archives, contracts and sensitive paperwork—even under prolonged fire exposure.
