Atelier Boonen - Sistec Euroguard SE 1, 2 and 3

Additional information

brand: Sistec safes

Sistec Euroguard SE – Fire-resistant safe Grade 1, 2 or 3 with LFS 60P / 30P

The Sistec Euroguard SE is a certified fire-resistant safe with burglary protection, designed for professional

and private use. The Euroguard SE range is tested according to EN 1143-1 and available in Grade 1, 2 and 3. Fire resistance is certified according to EN 15659, with LFS 60P for Grades 1 and 2 and LFS 30P for Grade 3. This provides 60 or 30 minutes of protection for paper documents at temperatures up to 850 °C.

Sistec Euroguard SE safes are built with a multi-walled construction and equipped with four-sided door locking. Three sides close with solid mobile steel bolts. On the hinge side, the door is locked by a continuous interlocking profile that engages into the safe body over the full height. As a result, attacks on the hinges, such as cutting or removing them, have no effect on the security.

As standard, the safe is equipped with an EN 1300-certified double-bit key lock, with the option of an electronic or mechanical combination lock, including dual-lock configuration.

The Euroguard SE range is designed for intensive use and stands out for its refined finish, solid construction and practical interior layout. The door opens 180° for optimal accessibility. Height-adjustable shelves and preparation for floor anchoring are included as standard. Finished in light grey RAL 7035, with optional left-hinged door or internal drawer.

Note on models not fire-tested

Most models in the Sistec Euroguard SE range are fire-tested according to EN 15659. The double-door safes SE1 6, SE2 6 and SE3 180 are exceptions. The compact model Sistec Euroguard SE III 55-S is also not fire-tested.

See also our other fire resistant safes or read how to approach buying a safe in Belgium, with delivery and installation by our own team.

Fire rated 30 or 60 min for paper
Burglary resistant class 1,2,3
Indicative value storage class 1: € 10 000 cash or € 20 000 valuables
Indicative value storage class 2: € 25 000 cash or € 50 000 valuables
Indicative value storage class 3: € 45 000 cash or € 90 000 valuables

- Tested and certified by ECB·S in accordance with the European standard EN 1143-1, Grades I, II and III
- Fire-tested for paper documents according to EN 15659: LFS 60P for Grades 1 and 2, LFS 30P for Grade 3
- The double-door safes SE1 6, SE2 6 and SE3 180 are not fire-tested
- The compact model Sistec Euroguard SE III 55-S is also not fire-tested
- Multi-walled body and door construction
- Four-sided door locking: three sides with mobile solid steel bolts and the hinge side with a continuous interlocking profile
- The interlocking profile makes attacks on the hinges, such as cutting or removal, ineffective
- Equipped as standard with a double-bit key lock
- Height-adjustable shelves
- Prepared for anchoring
- Colour: light grey RAL 7035
