

Atelier Boonen - DRS Euro Defender

Additional information

brand: De Raat Safes

DRS Euro Defender Fireproof Safe – Certified Protection Against Burglary and Fire

The DRS Euro Defender fireproof safe provides reliable, certified protection against both burglary and fire. Known for its excellent price-performance ratio, it is available in security grades I, II, and III, tested according to the EN 1143-1 standard and certified by the independent body ECB-S.

For fire protection, each model is tested to the NT FIRE 017 standard (945 °C), providing 60 minutes of certified fire resistance for paper documents.

Every DRS Euro Defender safe is equipped with a three-sided locking system with active solid-steel bolts, complemented by fixed bolts on the hinge side for enhanced resistance to forced entry.

A fire-resistant expanding strip around the door and frame reacts to high temperatures to seal the safe and block heat, smoke, and hot gases.

The locking mechanism is further protected by a reinforced armour shield made from ultra-hard materials, including carbide and hardened steel balls.

Additionally, active and passive relocking systems, among the most advanced on the market, offer extra protection against tampering or attempted break-ins.

Most models can be fitted with a variety of locking options, such as a double-bit key lock, a mechanical combination lock, an electronic code lock, or a combination of these systems to meet specific security and usability preferences.

Thanks to their relatively low weight, DRS Euro Defender safes are easy to install without compromising on security.

A reliable and versatile solution for anyone seeking a certified fire-resistant and burglary-protected safe, suitable for both professional and private use.

Fire-retardant 60 min for paper

Burglary resistant class 1,2,3

Indication of value storage class 1: € 10 000 cash or € 20 000 valuables

Indication of value storage class 2: € 25 000 cash or € 50 000 valuables

Indication of value storage class 3: € 45 000 cash or € 90 000 valuables

- Tested and certified by ECB.S in accordance with European standard EN 1143-1 Grades I,II and III
- Fire resistant tested 60 minutes for paper according to NT 017 60 Paper
- Three-sided locking by means of steel bolts
- Fixed bolts on the hinge side
- Standard equipped with double bit key lock
- Height adjustable shelves
- Prepared for anchoring
- Color: black
