Atelier Boonen - Salvus Torino

Additional information

brand: Salvus safes

Salvus Torino – Fire-resistant cabinet (EN 15659 LFS 60P)

The Salvus Torino is a fire-resistant safe, tested according to the EN 15659 LFS 60P standard, which ensures the safe provides 60 minutes of protection for documents at temperatures up to 850°C, without a drop test or cooling phase. This standard is ideal for environments with a moderate fire risk, such as homes or

offices, where protection of documents from fire is important.

The Salvus Torino features a three-sided locking mechanism with steel bolts and fixed bolts on the hinge side for added protection against tampering. It comes standard with an electronic lock for easy access.

The internal layout of the safe is flexible with adjustable shelves, which can be customized to your storage needs. Additionally, the Salvus Torino is prepared for anchoring, offering extra protection against theft. The safe comes in an anthracite gray color, giving it a professional appearance.

The Salvus Torino provides reliable protection for your documents against fire and is an excellent choice for storing valuable papers
