Atelier Boonen - Salvus Monopoli

Additional information

brand: Salvus safes

Salvus Monopoli – Compact deposit safe with deposit system

The Salvus Monopoli is a compact deposit safe, also suitable as a day safe, designed for safely depositing cash or documents without opening the door. Constructed from 3 mm steel plate, it features a single-wall body and a door locked on three sides.

The unit includes a secure deposit system with anti-fishing protection, integrated into an easy-to-use deposit flap. This mechanism prevents access to deposited contents and offers smooth handling for regular use. It provides a reliable solution with basic security, ideal for environments where interim deposits are needed. Depending on the model, the safe may include one or more compartments, with the option of an internal lockable compartment.

The door opens to 180°, and anchoring holes are provided in the base (fixing materials included). Available with either a double-bit key lock or an electronic combination lock with programmable time delay.

See also our other deposit safes or read how to approach buying a safe in Belgium, with delivery and installation by our own team.

- Door and body single-walled in 3 mm sheet steel, fully welded without seams.

- Four-sided door locking: steel bolts on three sides and a hook profile on the hinge side.
- Deposit flap with anti-fishing device, preventing access to the contents after deposit.
- Deposit opening: 69 × 210 mm (Monopoli 1) and 108 × 299 mm (Monopoli 2 and 3).
- Sturdy hinges; door opens 180°.
- As standard with double-bitted key lock; E models with electronic combination lock with programmable opening delay.
- Anchoring hole in the base, fixing materials included.
- Colour: anthracite.
