

Atelier Boonen - Fichet-Bauché Diva

Additional information

Fichet-Bauché Diva – Certified Fireproof and Burglary-Resistant Data Safe (S 120 DIS)

The Fichet-Bauché Diva is a premium-grade data safe designed specifically to protect digital media such as tapes, hard drives, and optical discs from both fire and unauthorized access. It is certified to the European standard EN 1047-1, class S 120 DIS, meaning your data carriers remain protected for up to 120 minutes in case of fire, while the interior temperature stays below 50°C. This level of fire resistance includes a drop test and thermal shock simulation, ensuring uncompromised protection under extreme conditions.

In addition to its fire performance, the Diva is also certified for burglary resistance according to EN 14450, class S2, offering dual protection in a single safe.

The Diva's structure is built from corrosion-resistant steel with a multi-wall construction, filled with exclusive fire-resistant insulation (Mirium). Multiple protective seals prevent intrusion of heat, smoke, dust, and moisture, preserving the integrity of stored digital media even in adverse environments.

This safe is available in five models, with internal volumes ranging from 112 to 565 liters, and can be

equipped with a variety of high-security locks, including the patented MxB-B key lock, the Moneo mechanical combination lock, or the Nectra electronic lock, with or without audit and delay features.

Thanks to its combination of advanced fireproofing, certified burglary protection, and customisable interior, the Fichet-Bauché Diva is an ideal solution for organisations and IT environments where data integrity and operational continuity are critical.

Fire resistant 120 min for digital media

Burglary resistant Security level S2

Security level S2 indication of value storage: € 5 000 cash or € 9 000 valuables

- Tested and certified by ECB.S in accordance with European standard EN 14450 security level S2
- Fire-resistant tested 120 minutes for digital media according to EN 1047-1 120 DIS
- Three-sided locking with steel bolts
- Fichet-Bauché MxB key lock as standard
- Height adjustable shelves
- Color: light gray RAL 7040
