Atelier Boonen - Chubbsafes ProGuard DT

Additional information

brand: Chubbsafes

Chubbsafes ProGuard DT – Certified deposit safe (EN 1143-2, grade 1 or 2)

The Chubbsafes ProGuard DT is a certified deposit safe to European standard EN 1143-2, available in grade D1 or D2. It offers effective protection against burglary for daily use in shops, hospitality businesses and other cash-intensive environments.

The deposit drawer allows valuables to be deposited securely without opening the safe door. The drawer is fitted with an anti-fishing device, preventing the contents from being retrieved through the opening.

The ProGuard DT features a lightweight yet robust multi-walled construction with four-sided door locking — three sides with solid steel bolts and a fixed full-height interlocking profile on the hinge side. An active relocker blocks the locking mechanism in the event of a sabotage attempt, and anti-drill plates protect the locking system. The deposit drawer and door are fitted as standard with a double-bit key lock. Depending on the configuration, these can be replaced by mechanical or electronic combination locks, with or without time functions, emergency key or other operating options, in accordance with EN 1300.

The range is available in four sizes with a capacity of 45 to 180 litres, offering a suitable solution for a variety of deposit requirements.

The Chubbsafes ProGuard DT is one of the few deposit safes on the market to retain full EN 1143-2 certification despite the presence of a deposit mechanism. This makes the range a reliable choice for the secure storage and protection of daily takings.

The ProGuard DT is from the same range as the Chubbsafes ProGuard — the professional Grade III safe from the same family.

Burglary resistant class D1 and D2 (EN 1143-2)
Indication value storage class D1: € 10 000 cash or € 20 000 valuables
Indication value storage class D2: € 25 000 cash or € 50 000 valuables

- Fully certified deposit safe, tested by ECB·S in accordance with the European standard EN 1143-2, in Grades D1 and D2. The deposit function does not affect the indication value storage of the safe.
- Deposit drawer equipped with an anti-fishing device that prevents reaching the deposited values.
- Built from new burglary-resistant materials with high strength and reduced weight — an advantage for transport and installation.
- Three-sided boltwork with solid steel bolts.
- Fitted with active relockers and additional attack-resistant features.
- Main door equipped as standard with a double-bitted key lock in accordance with EN 1300; deposit drawer with a Grade A double-bitted key lock.
- Modern design with ergonomic soft-touch handles.
- Anchoring holes provided in the base.
- Colour: black, with metallic grey door front.
