

Atelier Boonen - ATB BT floor safe

Additional information

brand: ATB Safes

The ATB BT floor safe is certified to EN1143-1, Grade I and designed for discreet installation into the floor. This built-in floor safe offers a secure and practical solution for a variety of use cases.

It features a rectangular, top-opening door supported by a gas spring, which assists with opening and prevents the lid from closing accidentally. Compared to traditional round floor safes, this design offers significantly easier and more ergonomic access.

The multi-layer door structure includes four-way locking, designed to withstand mechanical and thermal burglary attempts.

The ATB BT is available with either a double-bitted key lock or a mechanical combination lock with three dials.

Available in various sizes (from 44 to 72 litres), the ATB BT provides a solid, certified solution for those seeking a secure and discreetly integrated floor safe.

Burglary resistant Class 1

- Tested and certified by ECB.S in accordance with European standard EN 1143-1 in Grade I
- Three-sided locking by means of steel bolts
- Lock and frame protected with additional armoring
