Atelier Boonen - Kaba-Mas Auditcon II

Additional information

Kaba Mas Auditcon locks have the unique feature of generating their own energy, making them completely independent of external energy sources. These locks are widely used in government institutions both in the US and in the EU.

See also our other electronic safe locks, supplied and installed by our own team in Belgium.

Unique system:

By turning the dial back and forth, the lock itself generates the necessary energy to be opened.
