Atelier Boonen - Chubbsafes Senator

Additional information

brand: Chubbsafes

Chubbsafes Senator – Grade 1 safe with 30-minute fire protection

The Chubbsafes Senator is a certified Grade 1 safe in accordance with EN 1143-1, offering 30 minutes of fire protection for paper documents according to EN 15659, LFS 30P, tested at temperatures up to 843 °C. The Senator is an accessible entry into the certified safe grades, for home or office use.

The safe features a 99 mm door and 40 mm walls, filled with fire-resistant insulation. The locking mechanism includes solid steel bolts on the closing side and an internal relocking device that activates during a forced attack. On the hinge side, a hook profile anchors the door into the body, rendering attacks on the hinges ineffective.

Available with a double-bitted key lock (EN 1300 Class A) or an electronic code lock (Class B). All models come with floor anchoring and an adjustable shelf. Thanks to its limited depth, the Senator is easy to place in a cupboard or under a desk.

Available in four sizes, from 30 to 190 litres. The Chubbsafes Senator offers a certified combination of burglary resistance and fire protection, suitable for professional and residential use.
