Atelier Boonen - Fichet-Bauche GSL 1000

Additional information

brand: Fichet Bauche

Fichet-Bauche GSL 1000 – Advanced time lock for safes and vaults

The Fichet-Bauche GSL 1000 is an advanced time lock (tijdslot, serrure horaire) for safes and strongrooms, featuring extensive capabilities including standalone or IP network operation, OTC (one-time code) use, and advanced time management features. Available in Class B and C according to EN 1300, it is designed for high-security applications requiring maximum flexibility.
Since 2022, the GSL 1000 has been gradually replaced by the Fichet-Bauche KelNet lock, which builds on its proven reliability with a more modern interface and additional features.
