

Atelier Boonen - De Raat PT

Additional information

De Raat PT Security Cabinet – double-walled design with key or code lock

The De Raat PT security cabinets feature a double-walled body and door, constructed from steel plate and filled with mineral wool. The door includes a 6mm solid steel plate and is equipped with a manganese steel drill protection. The cabinet is secured on three sides by solid steel locking bolts. Internal hinges allow for a door opening of 90°.

PT models are fitted as standard with a flush-mounted double-bitted key lock. ET models come with an electronic code lock, which protrudes approximately 25mm from the door surface. The interior is equipped with height-adjustable shelves for flexible organisation. Anchoring holes are provided in both the base and the rear panel. Finished in light grey (RAL7035).

- Door is double-walled with 6mm door leaf and manganese steel drill protection.
- Walls are double-walled sheet steel filled with glass wool
