Atelier Boonen - Fichet Bauche Inviktus

Additional information

brand: Fichet Bauche

Fichet-Bauche InviKtus – Safe with triple protection: burglary, fire and explosion

The Fichet-Bauche InviKtus safe represents the pinnacle of physical protection for high-risk environments. It offers triple certified security: burglary resistance (Grade 3 to 6 according to EN 1143-1, certified A2P and ECB·S), fire protection for 60 minutes (NT Fire 017 standard, 927 °C) and explosion resistance (EX certification). Versions with additional protection against diamond core drilling (CD) are also available as an option.

The InviKtus features locking in three directions with active steel bolts, complemented by a full-height hook profile on the hinge side, rendering any attack on the hinges useless. An expanding fire seal surrounds the door and frame to prevent the spread of heat, flames and smoke.

The locking mechanism is protected by high-performance armour plating and active and passive blocking systems that engage in the event of a burglary attempt. True to Fichet-Bauche expertise, the InviKtus is mandatorily fitted with two A2P certified locks, including:

- MxB key lock (Fichet-Bauche, class B/C – EN 1300)
- Moneo mechanical combination lock (class C)
- KelNet electronic network lock (class B/C)

Thanks to an exclusive composite material, the InviKtus is relatively light for a safe in this category, which makes installation easier without compromising on security. Its design also maximises the usable storage space while limiting the external footprint.

With a wide range of interior fittings (adjustable shelves, lockable drawers, interior cabinets) and compatibility with the DOCT alarm system (detection of opening, shock and temperature), the InviKtus is designed to face the most demanding threats. A Fichet-Bauche InviKtus is therefore the ideal choice for anyone seeking maximum security, certified protection and proven durability.

Fire resistant 60 minutes for paper
Burglary resistant class 3, 4, 5 or 6
Indicative value retention class 3: € 45 000 cash or € 90 000 valuables
Indicative value retention class 4: € 75 000 cash or € 150 000 valuables
Indicative value retention class 5: € 125 000 cash or € 250 000 valuables
Indicative value retention class 6: € 250 000 cash or € 500 000 valuables

- Tested by the CNPP laboratory and certified A2P and ECB·S in accordance with the European standard EN 1143-1, in Grade III, IV, V or VI.
- Fire tested for 60 minutes for paper according to NT Fire 017 (60 Paper).
- Tested against explosion according to EN 1143-1 in classes III EX, IV EX, V EX and VI EX.
- Multi-walled construction of body and door, filled with a high-resistance composite reinforced with special armatures and armour plating.
- Locking in three directions by solid steel bolts.
- Hook bar over the full height of the door: any attack on the hinges is ineffective.
- Lock and boltwork protected by additional armour plating and relocking devices.
- Mandatorily fitted with two EN 1300 certified locks (A2P): MxB key lock and Moneo mechanical combination; KeINet electronic lock optional.
- Height-adjustable shelves.
- Prepared as standard for fixing to the floor.
- Colour: black.
