

Atelier Boonen - ATB STL for car keys

Additional information

ATB STL - Certified key safe for car keys (Grade I)

The ATB STL is a heavy-duty key safe specifically designed for the secure storage of car keys and large key fobs. Built on the structure of the ATB L series, it features an adapted interior with enlarged key hooks, spaced 34mm apart horizontally and 98mm vertically, ensuring optimal key organization.

Certified to EN 1143-1, Grade I, the safe offers reliable protection against burglary. The door opens to 180°, is right-hinged, and is secured with four-sided locking using solid steel bolts. Starting from model STL 72, units include extendable key panels for increased capacity and ease of access.

Wall and floor anchoring is standard, with fixing material included. Locking options include a key lock, mechanical combination lock, or electronic code lock with emergency key override.

The ATB STL series offers a certified and practical solution for professional key management in garages, fleet services, and car rental operations.

Burglary-resistant Class 1

Indication of Class 1 value retention: € 10 000 cash or € 20 000 valuables
