Atelier Boonen - Fichet-Bauche Atrius

Additional information

brand: Fichet Bauche

Fichet-Bauche Atrius – High-security safe Grade 4 or 5 (EN 1143-1)

The Fichet-Bauche Atrius is a high-security safe, certified according to the European standard EN 1143-1 in Grade 4 or 5, with double ECB·S and A2P certification following tests by the CNPP laboratory. Derived from the iconic Inviktus, it is designed for retail businesses and professional environments with high security requirements — jewellers, watchmakers and companies handling substantial values.

The doors and walls contain the Fichet-Bauche GRAD-X composite, encased in a steel envelope. This very high-resistance assembly is designed to withstand all thermal and mechanical attacks. The door is locked in three directions by solid steel bolts, while a hook bar over the full height of the door renders any attack on the reinforced hinges ineffective. The lock and boltwork are protected by additional armour plating and relocking devices that block the door in the event of a burglary attempt.

The Atrius is designed for easy daily use: handle on the left, key on the right, controls at the top of the door.

The Atrius is fitted as standard with two EN 1300 certified locks, A2P label: the patented Fichet-Bauche MxB key lock and the Moneo mechanical combination. Electronic locks (Nectra, KelNet) are available as options, as is the factory-fitted DOCT alarm, which detects opening, shock and thermal attacks and connects to most alarm systems.

The Atrius is available in five sizes from 139 to 596 litres, fitted as standard with height-adjustable shelves and prepared for fixing to the floor. Numerous interior options are available: reinforced shelves, suspension file holders and interior cabinets. Looking for the highest security level in the range? Discover

the Fichet-Bauche Inviktus, from which the Atrius is derived.
