Atelier Boonen - Kaso E 500

Additional information

brand: Kaso Safes

Kaso E 500 - Designer safe with certified security and refined finish

The Kaso E 500 combines contemporary Scandinavian design, cutting-edge technology, and certified protection. This premium safe is made for those who value both aesthetics and security — ideal for elegant residential settings and modern office environments.

Certified according to EN 1143-1, Grade II or III (ECB·S), the E 500 also offers 60 minutes of fire protection for paper documents, tested to NT FIRE 017 (60P). Its BFP multi-layer construction keeps weight between 200 and 340 kg, making it easy to position and anchor to the floor or wall.

The E 500 is user-friendly by design: the electronic lock is standard, and the door locks automatically — just push it closed, no handle needed.

With customisable panel options in wood veneer, aluminium, or any RAL colour, and optional features like:

- watch winders
- glass shelves or top plate
- pull-out drawers and hidden compartments

...the E 500 offers both form and function.

Each Kaso E 500 is carefully manufactured in Finland, with uncompromising attention to detail, durability, and design.

Kaso E 500 – where security meets comfort and style.
