Atelier Boonen - Masterlock LCH

Additional information

Master Lock - Document Safes for Digital Media with Fire and Water Protection

The Master Lock document safes offer reliable protection for digital media and important documents against fire and water damage. When placed in a safe, these safes provide additional protection against fire and water for sensitive documents and data.

- Master Lock L1200 provides 30 minutes of fire protection at temperatures up to 843°C. This compact safe is ideal for small documents and digital media such as hard drives and USB sticks.
- Master Lock LCHW20101 provides 30 minutes of fire protection and is waterproof, protecting against water damage and light flooding. Suitable for A4-sized documents and digital media that need protection against both fire and water.
- Master Lock LCFW30100 provides 60 minutes of fire protection at temperatures up to 927°C and is waterproof. This model is designed for digital media and important documents that require extra protection from both fire and water.

These safes provide reliable protection for important documents and data, especially when placed in a safe for enhanced protection.
