Atelier Boonen - Sistec ES I safe

Additional information

brand: Sistec safes

Sistec Eurosafe ES I – Burglary-resistant safe (EN 1143-1 Grade 1, ECB·S)

The Sistec Eurosafe ES I is a burglary-resistant class 1 safe, certified according to EN 1143-1 and approved by ECB·S. This Sistec safe provides a reliable entry-level solution within the certified safe segment for private and professional use.

The Sistec Eurosafe ES I safe features a multi-wall steel construction with burglary-resistant filling and is equipped with a 10 mm solid steel door plate. The locking mechanism consists of a three-way locking system with solid steel bolts. Manganese steel drill protection secures the lock area, while a passive relocker automatically blocks the locking system in the event of an attack.

The recessed door and internal hinges prevent direct attacks on both the hinge and locking sides. The compact design makes this safe particularly suitable for discreet integration in walk-in wardrobes or cabinets.

As standard, the Sistec Eurosafe ES I is fitted with an EN 1300-certified double-bitted key lock. Optional versions are available with a mechanical combination lock or an electronic code lock, focused on simple and fast daily operation.

Anchoring through the floor or rear wall is possible. Fixing materials are included.
