Atelier Boonen - ATB GS Light

Additional information

brand: ATB Safes

ATB GS Light - S1-rated gun cabinet for long firearms (EN 14450)

The ATB GS Light gun cabinet is designed for the organised storage of rifles and long firearms, based on the proven construction of the ATB MT security cabinet. It complies with EN 14450 – Security Level S1, making it suitable for hunters, sport shooters, and firearm owners who require certified protection.

This cabinet features a three-sided locking system with solid steel bolts, a right-hinged door opening 180°, and a foam-lined gun rack for storing 3 to 7 long guns depending on the model. Maximum firearm length: up to 1264 mm.

The ATB GS Light is equipped as standard with a double-bitted key lock and is prepared for floor and wall anchoring. Optional lock types include a mechanical combination lock or electronic code lock, with or without emergency key override. Most models also support an optional lockable interior compartment for ammunition or valuables.

Available in various sizes, including a combi version with additional shelving for accessories or documents. Finished in graphite grey (RAL 7024).
