Atelier Boonen - LA GARD 700

Additional information

LaGard 700 series - modern electronic safe locks with modular design

The LaGard 700 series is designed for those who want to combine reliability, ease of use and flexibility in a single locking system. The series consists of five models (701 to 705) and offers solutions from a compact basic lock to advanced multi-user and multi-lock configurations for complex applications.

See also our other electronic safe locks, supplied and installed by our own team in Belgium.

Usage & features.

All models operate with the same unified software platform, making configuration, management and firmware updates easy. The backlit OLED display provides clear user prompts for quick operation. Depending on the model, features available include multiple user codes, control of 2 to 5 locks, and second-factor authentication via a Bluetooth key fob (also deployable for bridging time-delay).

Security & Certification

The 700 series meets international standards such as UL, VdS, EN 1300, SBSC and CNPP a2p class 2. Each model is independently tested.

Specifications:

- Illuminated OLED screen
- 1 Master code
- 1 Manager code

- 28 users
- Dual Mode
- Time Delay
- Audit of 500 events with date and time
- power supply 2 x 9V batteries

Applications

This safe lock is certified according to EN 1300 Class B and is suitable for installation on safes and strongboxes up to Eurograde V according to EN 1143-1.
