

Atelier Boonen - ATB ORGUS

Additional information

ATB ORGUS Security Cabinet – Security Level S2 (EN 14 450)

The ATB ORGUS is a robust security cabinet certified for burglary resistance according to the European standard EN 14 450 – Security Level S2. It has been tested and approved by ECB-S and is designed for situations requiring enhanced protection. The double-walled construction consists of two layers of steel plate with a filled cavity that increases resistance against attacks.

The cabinet is fitted as standard with a double-bitted key lock, with optional mechanical or electronic locking systems available. It features three-sided locking with solid steel bolts and a hooked profile on the hinge side. External hinges allow the door to open 180°. The locking mechanism is protected against drilling.

Prepared for both floor and wall anchoring, the cabinet comes with one adjustable shelf. It is available in 7 sizes and can optionally be bolted together in column formation or placed on a plinth. Wall mounting is also possible.

The ATB ORGUS combines solid protection with practical functionality and is also suitable for use as a gun cabinet.

Burglary-resistant Security level S2

Security level S2 indicator: € 5 000 cash or € 9 000 valuables

- Tested and certified by ECB.S in accordance with European standard EN 14450 security level S2
