Atelier Boonen - Chubbsafes DUOFORCE T2

Additional information

brand: Chubbsafes

Chubbsafes DuoForce T2 – Burglary- and fire-resistant safe Grades 4, 5 and 6 (EN 1143-1:2019 T2)

The Chubbsafes DuoForce T2 is a heavy burglary- and fire-resistant safe — as its name suggests: dual certified protection in a single safe. It is certified by ECB·S according to the latest and stricter version of the European standard: EN 1143-1:2019 T2, in Grades 4, 5 and 6. The T2 classification is an addition introduced in the version of the standard: the safe is additionally tested with an extended tool list — more powerful and more refined versions of common burglary tools. The DuoForce T2 thus meets insurers' requirements for the highest value categories, and belongs in banking, jewellery, high-end retail and anywhere substantial values are stored.

As a fire-resistant safe, the DuoForce T2 is tested separately to NT Fire 017 – 60 Paper: in a furnace of almost 1000 °C, the internal temperature remains below the charring point of paper for 60 minutes. Documents and securities therefore remain protected even in a severe fire.

The door is locked on all four sides with thick, square steel bolts — including on the hinge side. Even if the hinges are attacked, the door remains mechanically anchored in the body on every side.

As standard, the DuoForce T2 is fitted with two locks: a double-bitted key lock and a mechanical combination lock. A wide range of EN 1300 certified locks is also available, including electronic code locks (class B or C) with time delay, time windows, multiple user codes and silent duress alarm, as well as time locks for strict opening procedures. Optionally, Planar Protection (an alarm wiring matrix integrated in the safe body, connectable to your existing alarm system) and Core Drill protection against diamond drilling are available — both without loss of fire resistance.

The range comprises seven sizes from 65 to 1090 litres (Grade 6 from 95 litres), with adjustable shelves and optional heavy-duty shelves. If you also require protection against explosives, see the Chubbsafes TriForce T2 Safe – Grade IV to VI EX, T2 certified with 60 min fire rating.
