Atelier Boonen - Creone ValueBox Basic, System & Expansion

Additional information

brand: CREONE

Creone ValueBox in three series: Basic, System and Expansion

The Creone ValueBox is a wall-mounted code cabinet with 2 to 6 lockable compartments, for personal belongings, medication, laptops or equipment that several people share. Each user opens only the compartment they have access to, with a personal code. You choose between three series: Basic with a keypad, System with a display and log, and Expansion to extend an existing cabinet.

Basic keeps things simple: you program up to 500 codes directly on the keypad, and a green LED shows that the cabinet is active. System has a display with a menu, handles up to 500 users with codes of 1 to 8 digits and records up to 3600 events. It adds time zones, a double code, a blocking function, a validity period per code and a maximum number of times a code may be used. One code can give access to one or more compartments. With the KeyWin Light PC software you manage the codes and read the log via a USB stick, and System can be connected to an external alarm or a card reader.

Each series comes in five layouts with the same external dimensions of 460 × 745 × 285 mm (H × W × D): the 7002 with two large compartments, the 7003 with one large and two medium, the 7004 with four medium, the 7005 with two medium and three small, and the 7006 with six small compartments. Up to 15 Expansion cabinets can be connected to a Basic or System main cabinet, in any combination. That way you operate up to 96 compartments with the keypad of the main cabinet.

The ValueBox runs on 230 V and is mounted on the wall. It is made of 1.5 mm powder-coated steel. A battery backup and alarm contacts are available as options.

The ValueBox is a practical code cabinet, not a safe: it is not certified against burglary or fire. If you need larger compartments, access by PIN or badge and management via KeyWin6, the Creone ValueBox Control is the next step.

See also our other Creone key and locker management systems, supplied and installed by our own team in Belgium.

- Series: Basic (keypad, personal codes), System (display, log, KeyWin Light) and Expansion (extension cabinet without its own keypad, operated from the main cabinet)
- Models: 7002 (2 large compartments), 7003 (1 large and 2 medium compartments), 7004 (4 medium compartments), 7005 (2 medium and 3 small compartments), 7006 (6 small compartments)
- Internal size per compartment (W × H × D): large 260 × 400 × 255 mm, medium 260 × 200 × 255 mm, small 260 × 125 × 255 mm
- Users: up to 500 codes per cabinet; System: codes of 1 to 8 digits, log of up to 3600 events
- System functions: time zones, double code, blocking function, validity period and number of uses per code, one code for one or more compartments, date and time on the display
- Expansion: up to 15 Expansion cabinets per main cabinet, in any combination, up to 96 compartments in total
- System connections: external alarm, external card reader, KeyWin Light PC software
- Construction: 1.5 mm steel, powder-coated
- Colour: RAL 9001 cream
- Dimensions: 460 × 745 × 285 mm (H × W × D), 20 kg
- Power supply: 230 V; battery backup as an option (Basic and System); alarm contacts as an option (System and Expansion)
- Mounting: wall-mounted
- Not certified against burglary or fire
