

Atelier Boonen - De Raat DRS Global

Additional information

brand: De Raat Safes

The DRS Global range by De Raat consists of compact, lightweight security safes that comply with EN 14450, Security Level S2, thereby providing basic protection against burglary attempts. These models are intended for private use and are commonly applied as home safes for storing cash, documents and personal belongings.

The construction is double-walled and fitted with a locking system featuring three solid rectangular bolts. This ensures reliable closure and resistance against opportunistic burglary. By using relatively thin walls, the safes offer a larger usable interior volume compared to their external dimensions, while keeping the overall weight low.

The DRS Global range is available in two versions: K-models with an EN 1300-certified double-bitted key lock (two keys included), and E-models with a programmable electronic lock. For anchoring, all models are prepared with fixing holes in both the base and the back wall.

Burglary-resistant Security level S2

Security level S2 indicator: € 5 000 cash or € 9 000 valuables

- Tested and certified by ECB.S in accordance with European standard EN 14450 security level S2
- Three-sided locking by means of steel bolts
- Hook-in profile on the hinge side
- Standard equipped with double bit key lock
- Height adjustable shelves
- Prepared for anchoring
- Color: grey RAL7024

Model specifications

Model	Outer dimensions (mm)	Internal dimensions (mm)	Volume (L)	Weight (kg)	Shelves
