Atelier Boonen - Chubbsafes HomeSafe

Additional information

brand: Chubbsafes

Chubbsafes HomeSafe S2-30P – Burglary- and fire-resistant safe

The Chubbsafes HomeSafe S2-30P is a certified safe, also suitable as a compact private safe. It offers protection against burglary and fire, certified to EN 14450 S2. For fire protection, it complies with EN 15659 LFS 30P, ensuring paper documents remain protected for 30 minutes at temperatures up to 850 °C, without a drop test or cooling phase, suitable for environments with a limited fire risk.

The body features a double-walled construction filled with Dualite composite material. This innovative barrier combines fire-resistant and burglary-resistant properties while keeping the safe lighter than traditional designs, making installation easier. The patented V-bolt locking system keeps the door securely anchored under attack or thermal pressure.

The HomeSafe is available with an EN 1300-certified key lock or an electronic Pulse Pro II lock. With six models ranging from 11 to 91 litres, it provides a discreet and dependable solution for residential and office use.
