Atelier Boonen - De Raat DRS Combi-Paper

Additional information

brand: De Raat Safes

Raat DRS Combi-Paper - fire- and burglary-resistant document cabinet

The Raat DRS Combi-Paper cabinets are designed for the safe storage of documents and files, offering both fire and burglary resistance. They are tested according to the European standard EN 15659 (LFS 30P), meaning they provide 30 minutes of fire resistance for paper at temperatures up to 850 °C. In addition,

they are burglary-resistant in compliance with EN 14450, with Security Level S1 or S2, offering added protection against break-in.

A major advantage of this range is its relatively low weight compared to other fire-resistant cabinets. The solid construction and reliable locking system make the cabinet also suitable for daily use in offices and businesses.

The height-adjustable shelves allow for neat and efficient storage of binders and files.

With the Raat DRS Combi-Paper, you choose a practical and secure document cabinet that combines fire resistance with certified burglary protection.

See also our other fire resistant cabinets or read how to approach buying a safe in Belgium, with delivery and installation by our own team.

Fire resistance: 30 minutes for paper
Burglary resistance: Security level S1 or S2
Security level S1 indicator: € 2 500 cash or € 5 000 valuables
