Atelier Boonen - STRONGROOM DOOR WERTHEIM FWT 085 CLASS 6

Additional information

brand: Wertheim safes

Wertheim FWT 085 – vault door class 6, promotional model in stock

The Wertheim FWT 085 is the class 6 vault door from the Wertheim vault rooms and vault doors range, the most requested class for securing a vault room. The door is certified to EN 1143-1 and intended for built-in installation: it is concreted directly into a wall.

The vault door is fitted as standard with a double-bitted key lock and a mechanical combination lock, both compliant with EN 1300 class C. Electronic safe locks can be integrated as an option. Thanks to its heavy construction with rectangular locking bolts and a reinforced hook profile along the full hinge side, the door offers maximum resistance to burglary attempts. Preparation for connection to an alarm system is included as standard.

This unit is a promotional model from a cancelled order (March 2025). One piece is immediately available from our warehouse in Beersel at an exceptional price. Delivery ex works, excluding VAT; installation by our own team is available on request.

Looking for a complete vault room, a different class or a custom vault door? See our overview of vault rooms and vault doors or contact us for a project proposal.
