

Atelier Boonen - STRONGROOM DOOR WERTHEIM FWT 085 CLASS 6

Additional information

Wertheim FWT 085 - Vault Door Class VI

The Wertheim FWT 085 vault door is designed for the protection of a strong room and provides certified security in accordance with EN 1143-1, Class VI. This model is intended for wall installation and is concreted directly into the structure.

The strong room door is standard equipped with a double-bitted key lock and a mechanical combination lock, both certified to EN 1300 Class C. If required, optional electronic locks can be integrated. Thanks to its

heavy-duty construction with rectangular locking bolts and a reinforced engagement profile along the entire hinge side, the vault door offers maximum resistance against burglary attempts. Preparation for alarm system integration is included as standard.

This unit is a promotional model, originating from a cancelled order (March 2025). 1 piece is immediately available from our warehouse in Beersel, offered at an exceptional price. Delivery is ex works, excluding VAT.

The Wertheim FWT 085 vault door stands for proven security, long-term reliability and high-level protection of strong rooms.
