

## Atelier Boonen - ATB Sentinel III Safe

### Additional information

Sentinel III - Burglar-resistant safe, Grade 3 (ECB-S certified)

The Sentinel III safe is a robust free-standing model, certified by ECB-S according to EN 1143-1, Grade 3.

The body and door are built from a multi-walled steel construction, filled with 50 mm of reinforced concrete. A fire-resistant sealing around the door frame provides additional protection against heat.

The door is secured by a solid three-way locking system with chrome-plated active bolts and fixed bolts on the hinge side. An internal relocking device ensures the safe is automatically blocked in case of an attempted break-in. The safe can be firmly anchored to the floor and/or wall through the prepared fixing holes.

The Sentinel III safe is available with a certified key lock (VdS Class 2) or with an electronic code lock. The series includes 9 models with capacities ranging from 30 to 446 litres.

The Sentinel III safe is a reliable, durable and well-engineered solution for those requiring a certified Grade 3 burglar-resistant safe.

Fire resistant 30 min for paper

Burglary resistant Class 3

Indication of value storage Class 3: € 45 000 cash or € 90 000 valuables

- Tested and certified by ECB.S in accordance with European standard EN 1143-1 in Grade III
