Atelier Boonen - Salvus Monza

Additional information

brand: Salvus safes

Salvus Monza - Lightweight Burglar Resistant Safe S2

The Salvus Monza is a lightweight, double-walled security safe and cabinet certified to EN 14450 class S2.

This certification covers cash up to €5,000 and valuables up to €9,000, making the Monza a reliable entry-level choice for home or office use.

The body features anti-drill protection at the lock and bolt mechanism. Locking is secured on three sides by round steel bolts of 19 mm, positioned at the top, bottom and front of the door. The internal hinges incorporate a hook profile that locks the door on the hinge side as well.

The safe is available with a double-bit key lock or an electronic code lock. The electronic lock sits flush with a protrusion of just 15 mm. Emergency power contacts are located on the outside of the keypad; the battery is fitted inside the door. The door opens to just over 90°. Floor and wall anchoring is possible.

The Salvus Monza comes in six sizes with an interior volume of 7 to 99 litres. Door thickness is 70 mm, wall thickness 40 mm.
