

Atelier Boonen - Excelsior

Additional information

brand: ATB Safes

A certified safe that complements your interior

Excelsior combines the security of a certified safe with the finish of a fine piece of furniture. The safe is burglary-resistant to EN 1143-1 and comes in class 3, 4 and 5. Inside, it has the same certified construction as the ATB Bravo, Alcazar and Tercio; on the outside, you decide how it looks.

Lacquer, leather covering and hardware finishes are coordinated. You choose the colour and texture of the lacquer, leather on the whole safe or just the door, and fittings in the colour and finish that suit your interior. An Excelsior is as much at home in a dressing room, a study or a living room as in a plant room.

The interior is also put together with you. Watch winders, jewellery drawers, shelves and interior lighting allow a layout suited to your collection and to how you use it every day. We build in watch winders from your preferred brand, and the winders you already own can be integrated too: see [Watch winders and accessories](#). If you prefer to have the interior fitted out by your own interior specialist, we adapt the safe and the technical provisions accordingly.

The class you need depends on the value you store and the risk on site. That threshold is reached sooner than you might think: with more than € 90 000 in watches and jewellery at home, you are already above the indicative value retention of class 3. For a private owner, class 4 or 5 can therefore be the right choice. We help you determine the class before ordering.

Our own team delivers, installs and anchors the safe. Floors, stairs and walls are protected during the work, the safe arrives in opaque packaging and our vehicles carry no conspicuous advertising. Anchoring is matched to the safe, the substrate and the manufacturer's requirements: without anchoring, the certified resistance class is not guaranteed. After installation, you can rely on our own after-sales service.

You are welcome by appointment in our showroom in Brussels, and a visit to your home is also possible. The best way to send us your wishes is by e-mail, with the dimensions and a few photos of the intended location.

See also our other [luxury safes](#) or read how to approach [buying a safe in Belgium](#), with delivery and installation by our own team.

Resistance class: [class 3](#), [class 4](#) or [class 5](#)

Indicative value retention class 3: € 45 000 cash or € 90 000 valuables

Indicative value retention class 4: € 75 000 cash or € 150 000 valuables

Indicative value retention class 5: € 125 000 cash or € 250 000 valuables

- Certification: EN 1143-1, class 3, 4 or 5, depending on the model chosen
- Finish: lacquer in the colour and texture of your choice, leather on the whole safe or on the door, fittings in several colours and finishes
- Interior: bespoke, with watch winders, jewellery drawers, shelves and interior lighting
- Anchoring: by our own team, matched to the safe and the substrate
