Atelier Boonen - DRS Combi-Fire

Additional information

brand: De Raat Safes

Compact S2 safe with 60 minutes of fire protection for paper

The DRS Combi-Fire by De Raat is a compact safe tested against both burglary and fire. Its burglary resistance is certified according to EN 14450, security level S2. Its fire protection is 60 minutes for paper, tested according to EN 15659 (LFS 60P). It is designed for documents and valuables; for hard drives and backups there are dedicated data safes.

It comes in four heights, from 24 to 105 litres, each in two versions: the K models with a double-bit key lock and the E models with an electronic code lock. The door opens to 180°. The shelves are height-adjustable. Options include an extra shelf, a lockable inner compartment from model 2, LED lighting and the MySafe Intelligent lock.

The safe is prepared for floor anchoring. Without anchoring, the certified resistance grade is not guaranteed. If you need a higher burglary grade with the same fire duration, see the DRS Köln and Wuppertal, in grade 0 and 1.

See also our other fire-resistant cabinets or read how to approach buying a safe in Belgium, with delivery and installation by our own team.

Fire resistant 60 minutes for paper
Burglary resistant S2
Indicative value retention S2: € 5 000 cash or € 9 000 valuables
