

Atelier Boonen - DRS Prisma vault door

Additional information

brand: De Raat Safes

Vault door in grade 1, 5 or 6 for access to a secure room

The DRS Prisma vault door by De Raat closes off the entrance to a strongroom or another secure room. It is certified according to EN 1143-1 in grade 1, 5 or 6. The doors in grade 5 are also fire resistant for 30 minutes for paper (LFS 30P according to EN 15659).

Each grade comes in three or four sizes, with an external height of 1700 to 2123 mm. Model I/3 has two leaves. A double-bit key lock is standard. For grades 1 and 5 it can be replaced by an electronic code lock or by the MySafe Intelligent lock. Grade 6 can be fitted with an electronic Paxos lock, alongside a key lock or instead of the key locks.

The resistance of a strongroom depends not only on the door, but also on the walls, floor and ceiling. We assess together on site which door and which construction suit your room.

See also our other vault doors and strongrooms or read how to approach buying a safe in Belgium, with delivery and installation by our own team.

Fire resistant 30 minutes for paper (grade 5)

Burglary resistant grade 1, 5 or 6

Indicative value retention class 1: € 10 000 cash or € 20 000 valuables
