Atelier Boonen - DRS Prisma Gun

Additional information

brand: De Raat Safes

DRS Prisma Gun – Weapon safe EN 1143-1 grade 0 (ECB·S)

The De Raat DRS Prisma Gun is a safe for long guns, tested and certified by ECB·S to EN 1143-1 grade 0. The range has four models for 3, 5, 7 or 9 long guns, all 1500 mm high.

The body and door have a multi-walled construction. The door locks on four sides, with an overlapping profile on the hinge side. Inside, the gun holders are adjustable to fit guns of different lengths, and there is a shelf at the top. The Prisma Gun 0/9 comes with an internal compartment 200 mm high.

As standard, the safe is fitted with a double-bit key lock, supplied with two keys. An electronic code lock is available on request. The safe is prepared for floor and wall anchoring. We deliver and anchor the safe ourselves: without anchoring, the certified resistance grade is not guaranteed. Colour: graphite grey RAL 7024.

See also our other weapon safes or read how to approach buying a safe in Belgium, with delivery and installation by our own team.
