# Atelier Boonen - ATB Alcazar Modular

## Additional information

brand: ATB Safes

## Demountable grade 4 safe (EN 1143-1, ECB·S), assembled on site

The ATB Alcazar Modular is the demountable version of our ATB Alcazar: a grade 4 safe that is delivered in parts and assembled on site. This lets you install a heavy safe where a one-piece safe cannot get through the door, up the stairs or into the lift. Assembly does not reduce the resistance: the safe is ECB·S certified to EN 1143-1 in grade 4.

The door and body are 50 mm thick. The door locks with Ø 25 mm rotating steel bolts, from 12 to 45 depending on the model, and is protected against drilling. In the event of an attack, a relocker blocks the bolt work. An M16 anchor (100 kN) is included.

There are ten sizes, from 178 to 2303 litres. Models APD-6 to APD-10 have one door and are 1100 to 1700 mm high. The APD-11 has a double door and the APD-12, 1950 mm wide, a four-part folding door. Inside are height-adjustable shelves; options include a 100 mm pull-out drawer and a key rack with an identification system. The door with its frame is also available separately, as a small vault door or to build a large built-in safe.

Like every grade 4 safe, the Alcazar Modular has two EN 1300 class B locks: two key locks, a key lock with a

mechanical or electronic combination lock, two electronic locks, or a key lock with an electronic lock with time delay and blocking. More information on our safe locks. Our own team handles delivery, assembly and anchoring.

See also our other burglary-resistant safes or read how to approach buying a safe in Belgium, with delivery and installation by our own team.

- Burglary resistance: EN 1143-1 grade 4, ECB·S
- Indicative value retention class 4: € 75 000 cash or € 150 000 valuables
- Demountable: delivered in parts, assembled on site
- Door and body: 50 mm thick
- Locking: Ø 25 mm rotating steel bolts (12 to 45 depending on the model)
- Drill protection and relocker
- Anchoring: M16 anchor (100 kN) included; rear anchoring kit as an option
- Doors: APD-6 to APD-10 one door; APD-11 double door; APD-12 four-part folding door
- Interior: height-adjustable shelves; pull-out drawer (100 mm) and key rack as options
- Door with frame available separately: as a small vault door or for a large built-in safe
- Locks: two EN 1300 class B locks
- Colour: grey, RAL Design 000 65 00

# Model specifications

| Model | Outer dimensions (mm) | Internal dimensions (mm) | Volume (L) | Weight (kg) | Shelves |
|---|---|---|---|---|---|
| APD-6 | H1100 W550 D550 | H1000 W450 D395 | 178 L | 530 kg | 4 |
| APD-65 | H1100 W700 D550 | H1000 W600 D395 | 237 L | 620 kg | 4 |
